

Irrigation Designer/ Draftsman:

TriEst has an exciting opportunity for a motivated professional who can thrive in a team environment and foster relationships within the organization and with customers to grow our presence in the irrigation industry.

We are looking for an experienced Designer/ Draftsman who will be based at our Darlington, SC, facility. The position involves designing irrigation systems with a graphically based CAD program. The individual should have basic AutoCAD skills and an understanding of hydraulics.

Specifically, the person chosen for this role will:

- Design new irrigation systems using Irricad software or other graphically based CAD programs specifically used for designing pressurized irrigation or pipe supply systems
- Troubleshoot problems in existing systems
- Provide cost estimates based on design
- Update detail drawings library

Requirements:

- Associate's degree in Civil Engineering Technology; either civil program or graphics program
- AutoCAD or BricsCAD knowledge
- Cost estimate background is a plus

To apply, contact Alan Smith, Human Resources Manager, prior to Wednesday, April 28, 2021. Resumes can be sent to hr@triestag.com.
